GOSSIPPY LETTER FROM SAN FRANCISCO.

[From Our Special Correspondent.]

SAN FRANCISCO, June 5th, 1877.

The Pinney Case—Sargent, Page, Carr, Gorham, et als.—California Street Smiling—Crown Point Mine—Captain Waddell and the Lost Steamer—Public Schools—The Knowlton Suicide—"Piece" Clubs Organizing—Good Effects from Hard Times—Amusements—Etc.

EDITOR DEMOCRAT:—The principal item of interest for the past few days has been the Pinney case, with its attendant libel proceedings. It is not often that a newspaper can enjoy the dignity of a personal controversy of a Senator and Congressman, and in the exuberance of its joy the *Chronicle* seems willing to cut adrift from its old associates, and if necessary for a journalistic triumph, sacrifice the Republican party and all its leaders. When rogues fall out honest men come by their own, and there is every prospect that the disclosures recently made by Pinney will have the effect of retiring Messrs. Sargent and Page to that private life they are so well fitted to adorn. And when they are out of the public gaze let us hope that their friends Carr, Gorham et al. will deem it prudent to withdraw also. So far as I can learn the people here are supremely indifferent as to which crowd shows itself to be the least villainous, the only expression being one of disgust that such men should ever have been tolerated in connection with public affairs.

The faces on California street have not been quite so elongated lately, as the insiders seem to have thought it time to shake things up a little, and the result is that low priced stocks have been advanced from 50 to 100 per cent., but of course the small holders will wait till prices go down again before they think of selling, it being a singular fact that the average stock operator never buys until the market is booming, and seldom sells before his particular stock has reached its bed-rock price.

The annual election of the Crown Point Mining Co. took place June 4th. The opposition had a majority of the stock, but the presiding officer by a series of arbitrary and contrary rulings succeeded in declaring the old management re-elected. Proxies were in demand at one dollar per share.

Capt. Waddell, of the wrecked steamer City of San Francisco arrived here on Saturday. He is very positive that the rock on which his vessel struck is not marked on any chart, but it is openly stated that the other Captains on the Panama route were fully aware of its existence.

The public schools closed on Friday for the Summer vacation, and will not reopen until after July 4th.

D. M. Knowlton, a prominent member of several societies, and brother of Professor E. Knowlton, committed suicide in consequence, it is supposed, of having resumed the use of intoxicating liquors, after being able to resist the temptation for some months.

The "piece" clubs are rapidly organizing for the campaign, and any ambitious candidate for office desirous of their valuable influence must have a long purse.

Hard times is not an unmixed evil, as retail tradesmen and others are vieing with each other in reducing prices, and when a suit of clothes can be obtained for six dollars and upwards, there can be no excuse for being poorly dressed.

There is no lack of amusements. On Monday John McCullough opened at Baldwin's, and the Soldene English Comic Opera Troupe commenced an engagement at the California. In addition to these we have Buffalo Bill, Emerson's Minstrels, MacAllister the Magician, who gives away everything from a packet of soap to a Steinway piano, and numerous other entertainments of a more or less extensive character.

I notice the city papers generally compliment the DAILY DEMOCRAT on the fine appearance it presents.

Weather is warm and pleasant.

CORRESPONDENCE FROM WINTERS.

WINTERS, June 5th, 1877.

EDITOR DEMOCRAT:—The harvest now goes briskly on, farmers have a disposition to push forward and have their grain ready for an early delivery, should the market continue brisk and at favorable prices. It is probable that one-half of the grain is now cut and awaiting the thresher throughout the county. No season has witnessed the ranchers more actively engaged than they are at this time. Men, horses and machinery find but little idle time. Though we may not have more than one-half of a full crop there seems to be no disposition among the farmers to reduce the usual price for hired labor, while it is a happy event to notice that but few laboring men are idle in our streets or traveling with their night's lodging on their backs over our public highways. Considering facts and realities as they exist in this neighborhood, I could not differ my report.

The past week was remarkable for its atmospheric changes; first warm, then cool and rainy days mixed up with dismal and dreary northers (which are always disagreeable visitors, especially at this season of the year,) all among the closing days of the tranquil month of May.

But few candidates have made themselves known to the people in this portion of the county. M. O. Harling is favorably spoken of for County Clerk, and should he consent to become a candidate will doubtless receive the solid vote of this precinct. Mr. Harling is one of Yolo's most upright men, and deserves more than a passing notice. P. J. McGrath for Sheriff, and John A. Brown for Surveyor, are both fascinating young men and take a good deal of interest in the public welfare. With good men on our ticket it will meet with success; with poor men we will not be so certain about the result, for unless a ticket is composed of the best men, nowadays, it is sure to be beaten, as it ought to be.

Some one recently remarked that the Editor of the *Yolo Mail* would receive the nomination on the Republican ticket for Assembly. Well, we hope he will; his reputation in heaping reproach upon this place and people has been distinguished for bitterness and self-luminous insolence, and we always feel like doing something for such persons when an opportunity offers.

This precinct contains eight preachers, three doctors and one lawyer—every one of whom vote the Democratic ticket.

Our hoodlums and Mongolians seem to cherish a terrible dislike for each other. Several fights have occurred between them. Their rows are becoming a nuisance.

The eastern portion of the road from Winters to Davisville is adorned by eucalyptus and walnut trees.

Dr. Norwood is reported to have said that either himself or the *Yolo Mail* man would have to leave the Republican party, as it was too small to hold them both. It must be a small concern indeed.

Yesterday J. G. Allen was arrested by Constable Womack and brought before Justice Hulse on complaint made by his wife, charged with an assault to murder. It seems that Allen's house was the stopping place of one Collins, a sewing machine agent, and that yesterday morning for some reason or other Allen became wonderfully excited with jealously, when he went for a shot gun and pistol, Collins making a hasty detour and a leap over the fence. Allen then turned his wrath upon his poor half-clothed wife, who has stood the brunt of his jealously for many years.

I ventured out to-day for the first time in a long while. After this I hope to be able to acquaint you with more regularity as to our local affairs.

Hearing of your enterprise in starting a daily I wish you the success you deserve in the undertaking. Respectfully yours,

ORLAND.

The Conflagration at Vacaville.

VACAVILLE, June 5.—A fire broke out about 5 o'clock yesterday evening, in a barn owned by Mrs. Wilson; cause unknown. There was a stiff breeze from the southwest at the time. The flames leaped from the roof to the adjoining roofs very rapidly, in a few moments enveloping the whole of the north side of the business portion of the town in flames. The damage is estimated at $50,000, covered partially by insurance. Following is a list of the sufferers: Mrs. Wilson, barn, frame building, dwelling and furniture; insured for $1,000 in the Farmer's Mutual; loss, $8,000. J. G. Sturgill, building, blacksmith's tools and stock; no insurance; loss, $1,000. D. Kerns, frame building and livery stable, hay and grain; loss, $3,000; insured for $1,700 in the Home Mutual. F. P. Ward, frame building; no insurence. G. P. Plaisted, stock of goods; insured for $800 in the Home Mutual; loss, $2,500. J. D. Tilson, building and stock of goods; loss, $6,000; insured for $1,500 in the Farmers' Mutual. M. Farrell, dwelling, saloon, and stock of liquors; insured in the Home Mutual and the Farmers' Mutual for $2,500; loss, $3,500. Jeff. Gordon, paint shop, building and stock; loss, $1,500. Gales & Long, butcher shop and building; loss, $1,000; insured in the Farmers' Mutual for $600. J. B. Robinson, dwelling; loss $500; no insurance. M. E. Church, South, insured for $500 in the Farmers' Mutual; loss $2,500. Union Hotel, owned by Mr. Worsham, and dwelling of Mr. Worsham; insured in the Home of New York for $4,500, and in the London and Liverpool and Globe for $1,000; loss $15,000. Mrs. Wilson puts her loss at $25,000 instead of the sum first stated. The barn cost her $3,500 alone, and had much hay in it. Her son went to the barn fifteen minutes before the fire, and saw no one about and locked it up, nor had he any fire ere. No one has any theory as to the cause of the fire. The town will not be greatly hurt by the fire. All the parties burned out own the land on which the houses stood and will build again, and probably have better structures than they had before. One man, the saddler, alone is needy. The citizens of Vacaville yesterday raised a purse of $300, and will make it $400 to enable him to rebuild his shop. Considerable personal property was burned in the street after being carried out Prof. Wallace saved all his furniture. Lodgers in the Union Hotel suffered in the loss of clothing, etc. The people of Vacaville are not at all despondent, but are cheerful over their mishap and cheerful.

A Big Catch.

A party of Woodland ladies and gentlemen went on a fishing excursion to the Sacramento river on Tuesday where they enjoyed fine sport in seining salmon to their hearts' content. The catch amounted to about fifty of that best of all fish, ranging in size from the little fellows of six inches in length to the fine fat one measuring fully three feet. The sport was all the more enjoyable from the fact that during the day it was unusually warm, while sitting at ease in a row-boat upon the river in the cool night breezes was extremely pleasant. We learn that the party was sufficiently numerous to fill several boats, and that they were so delighted with their trip, the enjoyment it afforded and the results that they intend repeating it ere very long.

FOR PRESIDENT IN 1880:

RAILROAD FOR LAKE COUNTY.

This is a matter that is claiming considerable attention at this time, as well by the State at large as by the localities more immediately interested. THE DAILY DEMOCRAT adverted recently to the proposed extension of the Vaca Valley and Madison railroad through Capay Valley and Cache Creek Cañon to Lake county, showing the feasibility of the project and also some of the advantages to accrue. The San Francisco *Bulletin*, of the 7th takes up the matter and says: "The Yolo and Lake county papers are again agitating the project for constructing a railroad into Lake county. It is proposed to extend the Vaca Valley railroad in that direction. The Vacaville road now terminates at Madison, ten miles west from Woodland and about five miles from Langville, at the entrance of Capay Valley. Through this valley runs Cache Creek, the outlet of Clear Lake. It is said that there are no engineering difficulties in constructing such a road. There is considerable tariff to Lake county by tourists, who are now compelled to ride a long distance by stage. The road proposed would also afford opportunity for connecting central California with the coast counties. If the Lake county road is ever built it will doubtless by supplemented by a connecting line between Madison and Woodland, and so with the Central Pacific system at Sacramento. The energy and enterprise displayed in the extensions of the Vaca Valley road give encouragement that the proposal for continuing it into Lake county may ere long take a definite shape. The road was originally a short line from Elmira, on the California Pacific, to Vacaville. It was subsequently continued to Winters. This was again followed by another extension to Madison. Capay Valley is a rich agricultural section, and considerable freight and passenger travel may be expected for any road built through it. In addition, the travel to and from Lake county is yearly increasing."

TREASURY DEPARTMENT DISMISSALS.

A New York *Tribune's* Washington special of the 1st instant says that thirty more dismissals from the Treasury Department to-day makes additional desolation. From the great number of dismissals from this Department lately we are led to think that the place was perfectly alive with employes. A little cleaning out will perhaps prove wholesome—send to the fields and workshops men and women who have long formed a great part of the dirty political network at the Capital. If a few more of those "trusties" who are swinging to the Government teat at Washington were shaken off, the wheels of Government would roll on less expensively and a better protection be afforded to the revenues that are wrung from an already overburdened people. Let the good work go on, though there be gnashing of teeth.

SOME GOOD GRINDING.

"The mills of the gods grind slowly, but they grind exceeding fine," remarks the Oakland *Democrat*, and it is believed that they will thoroughly pulverize the Ring on this coast. Investigations have been in progress for some time in regard to the San Francisco Mint, and two weeks since Director Linderman stated to a Congressman that there has been sufficient evidence to warrant the removal of La Grange, but that a thorough inquiry was in progress, and they would wait till that was concluded before acting. The Pinney statement, he believed, was true; indeed, there was already evidence to coroborate Pinney's declaration in regard to some of La Grange's acts. A Commission will shortly be appointed to investigate the San Francisco Custom-house, after the manner of the inquiry now in progress at New York and Philadelphia.

PROPER SENTIMENT.

We cannot fail to commend the following true sentiment, which we find in a letter to Capt. Geo. W. Gift, editor of the Napa *Reporter*, from Hon. C. T. Ryland, Democratic candidate for the U. S. Senate: "As to the Senatorship, permit me to say that if I cannot win it fairly and honestly I will not have it. I can afford to lose official position but not my self-respect."

ADJOINING THE TOWN OF WOODLAND.

The very desirable tract of land, containing forty acres, situated west of Rupley's corner on the south side of Main street, known as "THE PATRICK CASEY PLACE," is now offered for sale, the owner having taken up his residence in another county. This is

A Splendid Chance for Investment,

As Woodland is the county seat and is growing steadily in size and importance.

This site affords the advantages of a Town without having to bear the taxation that land does within the incorporation. The land is of the best quality, and as a water-ditch runs along the south side of it, can easily be irrigated.

Town and County Matters

BOLD ATTEMPT TO KIDNAP A YOUNG LADY!

A Man Enters the House, Takes Her from the Bed and Carries Her Off Asleep!

A HUNDRED FEET FROM THE HOUSE SHE AWAKES!

Her Terrified Screams Alarm the Neighbors!

Never was a bolder attempt made at kidnapping than occurred in Woodland on Monday morning at 2½ o'clock, every one's doors and windows being left open on account of the unusual warm weather, a man entered the rear door of Mr. J. G. Allison's residence in the east part of town, and without noise or ceremony took Miss Belle Allison, a young lady aged about sixteen, from the bed where she was soundly sleeping with a little brother and carried her out the back way toward the school lot adjoining without arousing her. He then laid her down when she awoke and uttered such screams as not only aroused the neighbors but also scared off the villainous abductor who, doubtless fearing capture, ran rapidly toward town, and easily escaped in the darkness.

Mr. Allison and his eldest son were absent from home. Mrs. Allison, her eldest daughter and two little ones were in other rooms and heard nothing of the diabolical deed being perpetrated till Miss Belle came running in her night clothes, screaming and almost fainting, to the house.

The frightened girl thought the villain was a Chinaman from his long nails, which made themselves felt in her struggles to free herself from him. She found a cloth in her hand with which he had probably intended to stifle her cries.

This could not have been a "Charley Ross" attempt to extort money, as the father is not one of our wealthiest citizens, and Miss Allison is too smart to be hoodwinked. But whatever the object of the villainous kidnapper was, it is a great pity he could not have been arrested and made to suffer the full penalty of the law.

DAILY DEMOCRAT.

Anyone now taking THE YOLO DEMOCRAT who desires to drop the Weekly and take the Daily, can do so by sending or leaving word at this office. The Weekly is $4 a year, the Daily $6.

The Attempted Abduction Case.

The circumstances of this case as latter developed, seem to make it clear that chloroform, ether, or something of that nature must have been used to stupify all the inmates before entrance was made into Mr. Allison's house on Sunday night, or rather Monday morning—for it was half-past two when the attempt was made to abduct Miss Belle from the house. The family yesterday said they all felt stupid and fancied they could smell something unusual. And it would seem almost impossible that a man could enter a house, take a young lady of eighteen from her bed, with five other persons in the house and carry her out, without awaking one of them, unless their senses had in some way been benumbed. The victim of the attempt says she awoke as soon as the man had got her to the door, grasped the lintel and screamed as she recovered her senses, and yet no one heard her. But the desparado who undertook the bold job of carrying her off was not foiled at this, for he dragged her with her feet touching the ground to the back end of the lot, when she threw both arms around a post she was able to reach and screamed with all her might. Hearing the unusual cry of alarm a near neighbor sprang up and answered it at the top of his voice, whereupon the villain let go his hold and made off as fast as his legs could carry him. The poor girl carries marks on different parts of her person, showing beyond doubt that she was roughly handled.

After our yesterday's issue, detailing the first account of the diabolical affair, some expressed the thought that it was a case of somnambulism. We are satisfied that it was no such thing, but a desperate attempt to steal the young lady from her parents' roof by some person unknown and for a purpose also unknown. It seems to us the DEMOCRAT has done its part faithfully in chronicling the facts, and that the proper officers ought to investigate the case.

Road Condemnation Case.

The time of the District Court last week occupied the first three days with the trial of the case of Yolo County against Michael Lanken, the action being brought to condemn land for the right of way of Road No. 115¼ in District No. 1, a few miles below the town of Washington. The proposed road is to run in front of the defendant's farm, between his levee and the river—and he refused a tender of $100 damages from the Supervisors, claiming that his damages would be largely in excess of that amount—resulting from the deprivation of his water privilege, danger to his levee, injury to his hop crop by dust, the expense of new fences, etc. The Jury retired at 7:30 o'clock last evening, and after being out a couple of hours returned a verdict in answer to special issues in substance as follows: That the actual value of the land sought to be taken for the road is $340; that damage sustained to the land not taken for the road, by reason of the location of the road is $890; that the benefit to the land not taken is $125; that the levee is included in the road in two places. The case was then submitted to the Court on the law questions and taken under advisement.

What a Yolo Ranch can Do in a Dry Season.

The DEMOCRAT has heretofore mentioned the fact that Hon. Chas. F. Reed, of Knights Landing has a crop of some 2,000 acres of wheat on reclaimed tule land in this county which will yield immensely. The Sacramento *Bee* referring to it says: It will yield, so good judges say, an average of full thirty bushels to the acre. This will give 3,610,000 pounds of wheat worth, at two cents a pound, $72,000. Deduct the cost of planting and getting the crop ready for market, $7 an acre, and he will have a net profit of at least $58,000, or $29 for every acre of his tract, which we should judge will far more than cover the cost of reclamation.

An Indian Shot.

On Saturday a band of drunken Indians stopped at the ranch of John Campbell, 7 miles west of town, and upon being ordered off by Johnny Lambert who had a lot of wheat there and feared they would set it on fire, one of the Indians became saucy and assaulted Lambert who shot Mr. Lo in self defense. The pistol was discharged twice, the second shot only taking effect in the thigh. This satisfied the Indian and he and his party vamosed the ranch instanter. Our informant thought Lambert was entirely justifiable in his course.

News received just as we go to press: The store of Morris Hyman at Williams was destroyed by fire. No particulars.

Irrigated and Reclaimed Lands.

This class of lands command high prices throughout California, and especially is this the case where the soil is good so that alfalfa can be raised. Be it known, however, that kind of clover stands the dryest seasons, but of course does not do as well unless it has plenty of water. The kind of irrigation needed for successful alfalfa raising is flooding, in order to drown out the squirrels and gophers which live and thrive upon its roots, propagating so rapidly that unless some means are used to destroy them, they soon kill out the alfalfa in the manner referred to. Four and five crops of hay from this kind of clover is quite common, and it yields heavily. Alfalfa does equally well on some of our reclaimed lands along the rivers, where the moisture comes near the surface, making the soil too wet for the pests that bother the farmer so much on the plains. A friend was describing to us some alfalfa fields he saw near the Sacramento river the other day. Said he, it seemed to be about three feet high, as thick as it could stand, and just as even over the top as if it had been sheared with a machine. Yolo is fortunate in possessing a great quantity of this class of land. Especially in a season like the present are such lands valuable for the reason that they produce just as well or better than in wetter years and hay brings a higher price. It is now worth, baled, about $10 a ton in Woodland and in Sacramento it is quoted at $12. This price, with a yield of two to four tons an acre and two to four crops a year—say $60, gross—is no small matter. Of course it requires outlay to get it well started, and costs something for curing and baling, but it leaves a very handsome margin over and above all this, even including fair interest on the value of the land. The farmers in this vicinity who are successful alfalfa raisers hold their lands high as of course they ought to. It is worth just in proportion to what it will produce. We have not room in this issue for further figures and particulars but shall give them at another time.

The Wheat Yield of Yolo.

Wheat is turning out remarkably well in Yolo county this year, better than it was thought it would before threshing. Mr. F. S. Freeman informs us that he has a field of 400 acres from which he expected not more than 20 to 25 bushels an acre, but that it is yielding from the thresher fully 30 bushels; and that probably others will be similarly disappointed. Mr. Freeman has dealt largely in wheat for many years, and buys heavily. He estimates that this county will produce this season 30,000 tons, and as she will only require about 10,000 tons for bread, seed and emergencies, she will still have for shipment 20,000 tons. This is about the quantity shipped from the county the season of '74-5—year before last. Last year the product was far above an average, and the quantity of wheat shipped amounted to near 60,000 tons. But then the price was low, now it is high, and if the war continues will probably be higher before winter. Just at harvest time it cannot be expected to advance from figures set before harvest; it generally goes the other way. So take it all in all—the increased yield more than has been counted upon earlier in the season, together with the unusually high prices wheat commands this year, and our county will come out pretty well after all. We are more than ever convinced, after a residence in Woodland of nearly eight years, that Yolo county is one of the best in all our glorious California. All her permanent residents do well if they try.

Social Party.

A very enjoyable little party was held at the residence of Mrs. Craft, on First street, on Friday afternoon, June 8th. The party was given in honor of Miss Gertie McConnell, who has been visiting in Woodland for two or three weeks, and who has gained many frends among the young ladies and gentlemen of this city The young ladies present were Miss Dollie Welch, Miss Lillian Freeman, Miss Mary Freeman, Miss Allie Bidwell, Miss Irena Simpson, Miss Ellie Greene, Miss Leta Shellhammer, Miss Eva Simpson, and Miss Gertie McConnell. The young gentleman was Master Clay Welch, who seemed to fully appreciate the responsible position in which he was placed. However he acted his part admirably, and managed to "get away" with his share of the good things that were set before the little ones by their hostess. The afternoon was passed away in swinging, and in such games as are known only to persons of the age of those present, and all went home, feeling no doubt as Master Clay did, when he remarked that "it was the best thing he had ever struck."

Daring Fantastics of a Wild Vaquero.

An immense excitement was caused on Main St. about 11 o'clock last evening. At that time a tremendous noise was heard caused by the rearing and plunging of an infuriated steed ridden by a Mexican desperado. The villant night watchman made a rush for the wild violator of the city ordinance who was riding on the side walk, and filling the air with cursings loud and deep. Failing to secure the raging steed, the watchman hurled his heavy cane at the desperado, who with a blood-curdling yell caused his horse to leap into the street, and rode furiously away. In a few moments afterward the monster was seen coming round the corner at the Capital Hotel, and the night watchman made another rush for him. The rider wheeled his horse in true Mexican style, and Holland again hurled his huge stick at the retreating horseman, this time sending a parting shot after him. The last seen or heard of the desperado was that he was going at the rate of about forty-five miles an hour on the road to Langville. Holland is still hunting for his cane.

The Heated Term.

The wind which had been coming down from the north hotter and hotter with each succeeding day, Sunday night shifted to the South for a little while, but next morning it whipped back to the north again and yesterday was very hot—we call 112 in the shade very hot. It must so continue, however, until the wind changes and brings some cool breezes up from the bay. A family from San Francisco visiting in Woodland, and who of course are not used to this kind of weather, suffer very much from it. But it is like everything else, "good in its place." Just notice how benignly Craft, the ice man, smiles these scorching days; and Elston & White with their arctic soda fountain—don't they take in the change? So, you see, it has some good effects.

One Good Omen.

A friend remarked to us yesterday that Woodland seemed a good deal more like a live town, with a daily paper fresh every morning, than ever it did before. He was well satisfied with the DAILY DEMOCRAT and wished to change from the weekly to the daily. This is the tenth number, and we submit to our readers the question whether the promise to give them a newsy, readable paper has been kept good? We have done the best we could under the circumstances, but hope to do better in the future. If our people want a *good* daily paper they can have it. All you have to do, friends, is to give us your patronage and you will get full value in return, if we do say it. Please hand in your favors.

A Remarkable Triune Coincident Fact.

Three of the persons who accepted our offer of THE YOLO DEMOCRAT for one year to pay when Tilden was elected, and didn't pay accordingly, have since died violent deaths. One was accidentaly shot, another was shot purposely by another man, and the third shot himself from remorse. Their names are upon our books and can be seen by the interested; but for sufficient reasons it would not be proper to publish them at present. We *may* give a complete list hereafter.

District Court—Denson, J.

The following cases were disposed of yesterday which finished the business for the term:

Powell vs. Dunlap—Continued fir the term.

People vs. G. D. Roberts—Trial and submitted.

Court adjourned till July 16th.

Supervisors.

A session of the Board was held Monday and Tuesday, the time being principally occupied on road matters. In the case of the Armstrong Cañon road—leading to the Knoxville mines—viewers were appointed as follows: G. D. Stephens, Thomas Hall and M. A. Nurse, to report at next meeting. The other cases all went over, and the only other business done was the settlement of bills.

Grain Burned at Vacaville.

Private advices from Vacaville June 9th, inform us that a fire broke out in Mrs. Wilson's field and burned up 50 or 60 acres of standing grain for Dutton and Donaldson and 150 acres for Wm. Butcher besides a few acres of barley in the stack. It is estimated that Butcher's grain would have yielded a ton to the acre. The fire started near the Railroad and is supposed to have caught from the locomotive.

Sudden Death.

Patrick Carbery was found at the Tackney House yesterday suffering from the effects of the unusual heat. Two physicians were called who did all that could be done for him, but he kept failing and died about 11 o'clock last night. The funeral will take place to-day, Wednesday, at 2 P.M. from the Tackney House.

Fence Posts for Wet Lands.

The best thing we have seen in this line is the patent stone posts manufactured by Mr. Henry Martin in Woodland and Sacramento. Instead of rotting, the water hardens them and their weight keeps them down in high water. They are highly recommended and just the thing for the tule lands of Yolo county.

His Whereabouts.

EDITOR DEMOCRAT:—I have had a great many inquiries about my brother, Jas. Read, as to where he was, but was not able to give any satisfaction till now. I received a letter yesterday from him dated June 5th, stating that he was in Beaver, Utah Territory, with his sheep, and if he sold would probably return home by the way of Woodland.

Of the fourteen applicants before the County Board last week, three succeeded in reaching the percentage required, and received certificates as follows: Second grade, Miss Ella Hughes, and Miss Nina L. Shall we celebrate on the Fourth in Woodland is the question: If so, it is high time to make a move in that direction. Nearly all the papers in the State are mentioning meetings held for that purpose. So far nothing has been done here toward it.

Dr. Smith who advertised by handbills to lecture on the Chinese Question, Phrenology, etc., on Saturday night, failed to get an audience at Central Hall; but not to be balked in that way, the Dr. held forth to quite a crowd in the Capital Hotel bar-room. How well it paid him we did not learn.

We have just received from Messrs. Sherman & Hyde, the charming Schottische, entitled, "When My Ship Comes In,"—one of the best Schottisches published. It is now all the rage, and is being played at all the elite parties and the leading theatres. Ask your Music Dealer for it, or send 40 cents to the Publishers, Messrs. Sherman & Hyde, San Francisco.

Advertising Sales.

A newspaper is read by hundreds who never see the bills which are posted. Every subscriber to the paper reads all such advertisments carefully. He knows who is selling out and exactly what is offered for sale. The advertisements are a topic of conversation when friends meet, and arrangements made for attending the sale. The result is a crowd, spirited bidding, and a realization of ten, twenty or fifty times what it costs to advertise. No money is so sure to return a large profit as that spent in printers ink. A single additional bid will often pay all it costs to advertise a sale of personal property in a news paper. Is it not strange then that anyone should fail to advertise?

The Double Standard.

The Silver question will not down, nor will it be likely to receive its quietus until one or more of the innumerable propositions, which have for a considerable time flooded the land, be put to a practical test. President Hayes has, it appears, expressed himself as strongly in favor of the restoration of the old silver dollar, and is at the same time somewhat vexed that the Governor of Illinois should veto the silver bill recently passed by the Legislature of that State. The ground taken by the latter will, however, be generally accepted as at once sensible, and the only true course left for him to pursue under the existing circumstances. Illinois indulged in such a doubtful experiment, and one which might seriously disturb her finances. If any other State wants to make silver an unlimited tender, the Governor of Illinois will not be likely to interpose an objection; but he could not sanction the experiment being made in his own, President Hayes' wishes to the contrary notwithstanding. The stand taken by the President in reference to the Currency will probably revive the silver discussion with greater energy, and the question now arises what State is willing and ready to hazard the double standard in order to test the wisdom of the President's views thereon.—*S. F. Alta.*

Land for the Landless.

Under the United States Homestead Law any person twenty-one years of age and over, male or female, native or foreign born—married women excepted—may obtain one hundred and sixty acres of Government land on payment of $14 fees, and after a residence of five years on the land they can have a clear deed of it from the Government. After six months' residence, if it be preferred, they may get a deed on payment of $.60, and no further residence will be required. Soldiers may deduct time spent in the service of the Union, not to exceed three years, from the five years. By the Pre-emption Act any person over 21 years—except a married woman—may take 160 acres of Government land on the payment of $2 fees, and after residing on it six months, or for any time not exceeding three years and a half, may get a deed on payment of $200 and giving evidence of settlement and improvement. The timber law gives 160 acres to any one planting one-fourth of it in trees and cultivating it for eight years; 40 to 80 acres may be taken on like condition. The fees are the same for as homesteading.

Waiting to Hear.

The San Diego *News* says: "In Missouri, there was a contest in the first Congressional District between Frost, Democrat, and Metcalf, Republican, wherein the difference was one vote, a Democratic court decided in favor of the Republican. A similar kind of case existed here, between Wigginton and Pacheco, and was decided in the same way. We are now standing round waiting to hear of a case wherein the Republicans thus acted. We want to hear of it. Information will be taken from Maine to Florida. Don't care a cent. Let it come."

How the Whigs Abandon the Democracy.

The Toledo *Blade*, Radical, savagely says: "The Democratic party is splitting up wonderfully in South Carolina. An election was held in Fairfield county, the other day, to supply the places of two legislators who would not abase themselves sufficiently to be received by the Hampton Legislature. Last Fall the Republicans carried the county by 600 majority, but this time the Democrats carried it by 1,200 majority. We cannot but remark upon the eagerness with which the old Whigs abandon the Democracy."

WHAT OTHERS SAY.

The following notices of the WOODLAND DAILY DEMOCRAT have come to hand among many others for which we oave not room to spare:

The WOODLAND DEMOCRAT now issues a daily. We hope Bro. Saunders may find his experiment remunerative and establish his daily as one of the permanent institutions of Woodland.—*San Jose Daily Argus, June 4th.*

Woodland, Yolo county, is an improving place; at least we should judge so from the fact that our old friend, Wm. Saunders, is issuing in connection with his weekly DEMOCRAT a very handsome and interesting daily. A town that can give satisfactory support to so good a paper must not only be prosperous, but have a population liberal and progressive.—*Los Angeles Express, June 4.*

We have received the first number of the WOODLAND DAILY DEMOCRAT, Wm. Saunders editor and proprietor. It is the offspring of the YOLO DEMOCRAT, a ten years old weekly, and we are glad to know Mr. Saunders has found this business sufficiently profitable to warrant his new venture. Woodland is a pretty and prosperous town, the centre of a rich agricultural district, and if it shall well support this new enterprise it will find itself still more prosperous. If the DEMOCRAT shall hold to the mark set by its first issue it will merit success which is more creditable than to receive it. It is Democratic in politics.—*Oakland Daily Democrat, June 5th.*

WOODLAND DAILY DEMOCRAT.—We heartily congratulate Brother Saunders upon the appearance of his new venture, the DAILY DEMOCRAT. It is very neat indeed, and is filled with most excellent matter, editorial, locals and selections. We hope it may prove agreat success, and bring much income and comfort to the enterprising and deserving publisher.—*Napa Reporter, June 9.*

A DAILY PAPER.—The WOODLAND DEMOCRAT has appeared as a daily, and a very sprightly daily it is, too. We hope that Bro. Saunders will succeed in making it one of the permanent and leading journals of the State.—*Colusa Sun, June 9.*

The first number of the WOODLAND DAILY DEMOCRAT came to hand last Saturday. It is a neat little sheet, and looks remarkably healthy. Wm. Saunders, editor and publisher, Woodland Yolo county.—*Alameda Encinal, June 9th.*

We have received several numbers of the WOODLAND DAILY DEMOCRAT, recently started by our old and esteemed friend, Saunders. It is fully up to the mark, typographically and is wide awake and full of news. We wish you success, Brother Saunders, in your new enterprise.—*Kern County Gazette, June 9th.*

NEW DAILY.—We are in receipt of THE DAILY DEMOCRAT, published at Woodland, Yolo County. It is in appearance and character a first-class country daily, and we hope it may prove a success financially and otherwise.—*Sutter Banner, June 9.*

THE first number of the WOODLAND DAILY DEMOCRAT lies before us. It is published in connection with the YOLO WEEKLY DEMOCRAT, by Wm. Saunders, and is, judging from the first number, quite a lively and energetic paper. Nothing can speak more for the prosperity of Woodland than its manifest ability to support a daily paper to champion its cause and make known its wants.—*Placer Herald, June 9th.*

DAILY DEMOCRAT.—Absence from duty the past week prevented us from noticing the advent of the WOODLAND DAILY DEMOCRAT, and we are glad to find that Brother Saunders has given us a specimen of his handiwork in issuing so well gotten up a daily, both in matter and typographical appearance. We congratulate our contemporary on the prospect opening up for success in his undertaking, which we think is assured. We welcome the WOODLAND DAILY DEMOCRAT to our table and wish it long life and prosperity.—*Winters Advocate, June 9th.*

THE DAILY DEMOCRAT.—We are sorry that Bro. Saunders construed our notice of his daily last week as meaning that it was only a campaign paper. We did not intend any such inference to be drawn from our notice; but alluded to the coming campaign as being favorable to him, and that he might secure something extra in the way of political patronage to assist him in continuing it with profit. We want to see it live and prosper, for we believe, at least we hope, that if we possess none of that virtue which raises men to heaven, we have none of that other power which drags angels down.—*Yolo Mail, June 7.*

Winters Items.

The following items we extract from the Winters *Advocate* of Saturday last:

An attack of measles has confined Mr. John Gregory to the house for some days past.

Preparations we learn are being made to commence rebuilding the burnt district at Vacaville.

A Chinese cabin on the ranch of J. A. Devilbiss, took fire accidentally on Saturday last and was destroyed.

Mr. and Mrs. Parker, of Capay, and Mrs. A. McDonald, of Winters, left for the Howard Springs this morning.

The latest abstraction of our chamelion friend of the *Yolo Mail* is his attempt to ring himself in as a Missourian.

The farmers of Green Valley, Solano county, claim that that valley will produce double the amount of any previous year.

The firm of Blum & Frenkel, of Vacaville, has been dissolved. Mr. Blum will conduct the business of the firm in the future.

We had ripe peaches on Monday from J. P. Stewart, of Edwards' Addition to Winters, picked from trees eighteen months old.

Mr. J. Wolfskill, of Suisun Valley, informs the Vallejo *Chronicle* that that valley will yield more than an average crop this year.

Mr. George Winters who was lying dangerously ill at his residence in Washoe Valley, Nevada, we are pleased to learn is rapidly recovering.

Our good friend J. Devilbiss, was thrown from his horse on Friday last, and the horse rolling on one of his legs bruised it severely though fortunately fracturing no bones.

The Parker House has again changed hands. Mrs. Parker having resumed control of this favorite hotel, has thoroughly renovated, and will open it for the accommodation of the public on Monday next.

We notice large quantities of Pleasant Valley, Vacaville and Winters apricots, cherries and vegetables in the San Francisco markets on Saturday last; apricots selling at $1 25 to $1 75 per box; cherries, 10 to 20 cts per pound; tomattoes, 75 cents to $1 per box; summer squash, 50 cents to $1 per box.

The row on our streets on Monday between a Chinaman and a traveling musician, provoked by the latter, bid fair at one time to end in a general fight. In the melee the musician was cut twice in the leg, and the Chinaman was thrown against a sickle bar, the guards of which penetrated to his backbone. The parties were finally arrested and the Chinaman fined $50 by Justice Hulse.

Harvesting is being actively prosecuted all over the county, and stacks of wheat make a good showing on that portion of ranches that have been summer-fallowed, the yield from which will in some cases exceed that of last season, while the winter sowed will pay well for cutting, except in cases where only seed and bread can be secured. One farmer who expected no such result a few weeks since, informed us that he will have all that and some to sell, and his is by no means an isolated case.

Colusa Items.

The *Sun* very sensibly urges the farmers to save their straw.

A man named Albert Hayne was arrested on a charge of insanity.

We obtain the following items of news from the *Sun* of Saturday:

Born, June 3d, to T. J. Hart and wife, a daughter; June 2d, to L. Carpaneto and wife, a son.

Governor Irwin has commissioned Hon. T. L. Hatch as County Judge, *vice* L. W. Robinson deceased.

Joseph Oman, a farmer residing west of Williams, attempted suicide by opening a vein in his arm.

Willie and Lewis, sons of the late Judge Robinson, have died of typhoid fever, making three deaths in the family wihin as many weeks.

5,000 acres of wheat on Grand Island looks remarkably well and is being harvested. One tract of 800 acres is estimated at 50 to 60 bushels an acre.

Married, in Colusa, May 1st, Jarel C. Frazer to Sarah Alexander; June 3d, Wm. C. Erwin to Elvira Ann Marr; at College City, June 7th, A. A. Jackson to Ida H. Rathburn.

A fire in J. S. Gibson's wheat field, on Freshwater, on the 4th, destroyed 120 acres of very fine wheat and a quarter of a mile of plank fence, loss from $3,000 to $4,000—supposed work of an incendiary.

Knights Landing Items.

The Good Templars of Knights Landing are preparing to give a public entertainment in a short time.

The Union Hotel is being overhauled and refurnished. It will ere long be opened by a new landlord.

The river is at a very low stage and falling.

Jack Dyer has remodeled his saloon and supplied it with a first-class billiard table.

Notice to all whom it may concern.—This is to notify all persons that my wife MARY A. WARD, having left my bed and board without just cause or provocation, I will pay no debts of her contracting from and after this date.

JOHN WARD.

DAVISVILLE, June 6th, 1877. je6d1twlm

From a Farmer in Sutter County.

PLEASANT GROVE, SUTTER CO., September 2d, 1876.

MESSRS. PITCHER & PALMER:—I have used your Patent Petroleum Axle Grease for the past five months, and find that it surpasses anything I have ever used. I have used it on my header and header wagons, and am satisfied that it effects fully one-third saving over any axle grease, besides keeping clean the axles and boxes, and does not gum, and apparently is not affected in the least by the weather. Yours, H. CORNET.

Coughs and Colds.

From Samuel A. Walker, Esq., the well-known Real-Estate Auctioneer of Boston.

"Having experienced results of a satisfactory character from the use of WISTAR'S BALSAM OF WILD CHERRY, in cases of severe colds during the past two years, I have full faith in its renovating power. I was first induced to try this medicine by the strong recommendation of a friend, who was well-nigh gone with consumption, and whose relief from the use of it satisfied me of its great value in cases of colds and decline, and most clearly demonstrated to my mind its great value as a restorative, that only needs a fair trial to insure a grateful recognition from the public. Sold by all druggists.

Armed to the Teeth,

Is a very common expression, but we think that armed to embellish and preserve them to a ripe old age is decidedly more appropriate. This can be done by keeping yourself supplied with a bottle of that splendid dentifrice, Fragrant SOZODONT, which will beautify the teeth and preserve them from the ravages of decay. SOZODONT contains no acid or gritty substances which injure the enamel, but is composed of rare and antiseptic herbs, which have a beneficial effect on the whole economy of the mouth. Sold by druggists.

Important to all Invalids. Iron in the Blood.

THE PERUVIAN SYRUP, a protected solution of the protoxide of iron, strikes at the root of disease by supplying the blood with its vital principle, or life element—Iron. This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Sold by all druggists.

Business Improving.

Things are getting lively, says the Sacramento *Bee*. The old complaint of dull times is dying out and every body wears a hopeful appearance. Building in all parts of the city is progressing steadily, and every branch of industry is being vigorously prosecuted. The crops in this vicinity are turning out better than was anticipated, and there is no reason for expecting a dull season. Work in all the shops of the city is growing brisker daily, and hands that have been laid off for a long time are being taken on again. Take it altogether Sacramento is one of the most prosperous cities in the United States. The number of small houses that are being built continually shows also that the population is steadily increasing.

Willows.

The *Journal* gives the following account of this new town, which will be interesting to many of our readers: "Willows is located near the central portion of Colusa and in the best farming portion of the State, and situated on the line of the Northern Railroad—a direct line to San Francisco. The town site was surveyed out in August and September last. The site was owned by Mr. Daniel Zumwalt, who made a transfer to the Railroad Company. Messrs. Johnson & Hockheimer built their store on the above described site before any survey was made. There are three dry goods stores, three hardware stores, one boot and shoe store, two harness shops, two drug stores, three hotels, two livery stables, two butcher shops, three blacksmith and wagon shops, one barber shop, one milliner shop, eight saloons. There are quite a number of carpenters at work putting up buildings. The Masonic fraternity organized and took possession of their hall February 1st, 1877, working under dispensation."

River Items.

SACRAMENTO RIVER, June 5th, 1877.

EDITOR DEMOCRAT:—From the silence observed in regard to this part of the country, one might suppose you had forgotton the strip of land lying along the river and only separated from the dry plains by the troublesome tules. As this is principally a grazing locality, I have nothing to say of crops. Gardens, alfalfa, etc., still look well.

As Mrs. McCormick was driving along the river road from Knights Landing the other day she met a runaway horse fastened to a gig. In attempting to pass the gig became entangled in the wheel of Mrs. M's buggy: she alighted, unloosed the gig from the wheel, and tied the runaway horse, when her own horses became frightened and ran away with a little boy in the buggy. Anyone acquainted with river roads on high levees and rough places, can imagine the horror the runaway excited. The team ran for about two miles, when becoming entangled in a plow (where some men were working on the road) they were caught and stopped. The little boy, excepting a few bumps, was not hurt. H. A.

Mining in the Old River Beds.

Quite a large number of our prominent citizens, seeing that there is money in it, have invested quite heavily in the effort to mine out a portion of the old bed of Yuba river, by tunnelling upon an incline, which is said to be quite practicable, and then work out the old bed which is now covered to a depth of 20 feet more or less by the washings from the mines higher up the river. For general information we append the following as affording encouragement as to the progress making by one of the companies engaged in the undertaking: "The Pioneer river mining enterprise, the Yuba River Gold Mining Company, at Park's Bar, is getting along nicely now. Though somewhat delayed by a belt of hard rock which came in near the bottom of the incline, and continued for some distance into the drift, the latter is now in a distance of 65 feet and the ground now permits an advance of about four feet a day. The water is decreasing, none coming in where they are, which must be well out under the river, and it now seems most certain that the plan of drifting out the rich gravel of those river beds which have been covered deeply by the tailings of quartz and hydraulic mines for the past 20 years, is entirely feasible. This being the case, as old residents along the line express it, this class of mines will soon throw all others in the shade, so far as net production is concerned—for that the gold is there all concur in saying. Stock in all these river mining enterprises will likely soon be worth dollars where now they sell for cents. We firmly believe this."

1,000,000 Bottles OF THE

Centaur Liniments!

have been sold the last year, and not one complaint has reached us that they have not done all that is claimed for them. Indeed, scientific skill cannot go beyond the result reached in these wonderful preparations. Added to Carbolic, Arnica, Mentha, Seneca-Oil and Witch Hazel, are other ingredients, which makes a family liniment that defies rivalry. Rheumatic and bed ridden cripples have by it been enabled to throw away their crutches, and many who for years have been afflicted with Neuralgia, Sciatica, Caked Breasts, Weak Backs, etc., have found permanent relief.

Mr. Josiah Westlake, of Marysville, O., writes:

"For years my Rheumatism has been so bad that I have been unable to stir from the house. I have tried every remedy I could hear of. Finally, I learned of the Centaur Liniment. The first three bottles enabled me to walk without my crutches. I am mending rapidly. I think your Liniment simply a marvel."

This Liniment cures Burns and Scalds without a scar, extracts the poison from bites and stings, Cures Chilblains and Frosted-feet, and is very efficacious for Ear-ache, Tooth-ache, Itch and Cutaneous Eruptions.

The Centaur Liniment, Yellow Wrapper, is intended for the tough fibres, cords and muscles of horses, mules and animals.

READ! READ!

Rev. Geo. W. Ferris, Manorkill, Schoharie Co., N. Y., says:

"My horse was lame for a year with a fetlock wrench. All remedies utterly failed to cure and I considered him worthless until I commenced to use Centaur Liniment, which rapidly cured him. I heartily recommend it.

It makes very little difference whether the case be "wrench," sprain, spavin or lameness of any kind, the effects are the same. The great power of the Liniment is, however, shown in Poll-evil, Big-head, Sweeny, Spavin, Ring-bone, Galls and Scratches. This Liniment is worth millions of dollars yearly to the stock-growers, Livery-men, Farmers, and those having valuable animals to care for. We warrant its effects and refer to any Farrier who has ever used it.

Children.

A complete substitute for Castor Oil, without its unpleasant taste or recoil in the throat. The result of 20 years' practice by Dr. Samuel Pitcher, of Massachusetts.

Pitcher's Castoria is particularly recommended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup and for children Teething. For Colds, Feverishness, Disorders of the Bowels, and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 cents, and can be had of any Druggist.

This is one of many testimonials:

"CORNWALL, LEBANON Co., PA.,
"March 17, 1874.

"*Dear Sir*:—I have used your CASTORIA in my practice for some time. I take great pleasure in *recommending it to the profession* as a safe, reliable and agreeable medicine. It is particularly *adapted to children* where the repugnant taste of Castor Oil renders it so difficult to administer. E. A. ENDERS, M.D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy.

MARK THESE FACTS.

The Testimony of the Whole World.

HOLLOWAY'S PILLS.

"I had no appetite; Holloway's Pills gave me a hearty one."
"Your Pills are marvellous."
"I send for another box, and keep them in the house."
"Dr. Holloway has cured my headache that was chronic."
"I gave one of your Pills to my babe for cholera morbus. The dear little thing got well in a day."
"My nausea of a morning is now cured."
"Your box of Holloway's Ointment cured me of noises in the head. I rubbed some of your Ointment behind the ears, and the noise has left."
"Send me five boxes of your Pills."
"Let me have three boxes of your Pills by return mail, for Chills and Fever."

I have over 200 such testimonials as these, but want of space compells me to conclude.

For Cutaneous Disorders,

And all eruptions of the skin, this Ointment is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very roots of the evil.

HOLLOWAY'S PILLS Invariably cure the following diseases

Disorder of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water, or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bedtime. This treatment will give almost immediate relief when all other means have failed.

For Stomachs Out of Order.

No medicine will so effectually improve the tone of the stomach as these pills; they remove all acidity occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm, in fact they never fail in curing all disorders of the liver and stomach.

HOLLOWAY'S PILLS are the best known in the world for the following diseases; Ague, Asthma, Billious Complaints, Blotches on the Skin, Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, Lumbago, Liver Complaints, Piles, Rheumatism, Retention of Urine; Scrofula or King's Evil, Sore Throat, Stone and Gravel, Ticdoloroux, Tumors, Ulcers, Worms of all kinds, Weakness from any cause, etc.

IMPORTANT CAUTION.

None are genuine unless the signature of J. HAYDOCK, as agent for the United States, surrounds each box of Pills and Ointment. A handsome reward will be given to anyone rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Prof. HOLLOWAY & Co., New York, and by all respectable druggists and dealers in medicine throughout the civilized world, in boxes at 25 cents, 62 cents and $1 each.

There is considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.
